Thanks for the update Kevin. Ali normally does not handle discussions with residents on the feasibility of PWS connections. I will check back with Bjorn, the engineer who did the evaluation. We can also offer to give him bottled water as a permanent option. I will ask Ali to follow up with Leslie Phillip as soon as possible.

Kathy

Kathy,

I spoke with [Ex. 6 Personal Privacy (PP)] explaining that GAC would remove the PFOA from his water but he wasn't interested. I told him that due to his well being the only well to exceed the HA, it's not feasible to run the public water line to his home.

**Ex. 6 Personal Privacy (PP)**

I asked him if it would be okay if Ali contacted him about discussing his treatment options and going over the feasibility of connecting to Vienna water. He said that would be fine and that she can call him at [Ex. 6 Personal Privacy (PP)]  
[Ex. 6 Personal Privacy (PP)] I told him that she would be calling him soon.

**Ex. 5 Deliberative Process (DP)**

**Ex. 6 Personal Privacy (PP)**

**Ex. 6 Personal Privacy (PP)**

Please let me know if I can do anything else,

Thanks,

**Kevin Rowsey**

Good Morning Kevin,

The well at [Ex. 6 Personal Privacy (PP)/ EX. 9] I believe there were four wells sampled on that road and 3 were not qualified. [Ex. 6 Personal Privacy (PP)] We did get information on cost for hook up of the homes on that road, but with only one well qualified we did not pursue it further. Ali is following up with the owner of the well not yet sampled.

Kathy

Andrew and Kathy,

I was able to get in touch with [Ex. 6 Personal Privacy (PP)] at [Ex. 6 Personal Privacy (PP)]

**Ex. 6 Personal Privacy (PP)**

[Ex. 6 Personal Privacy (PP)] I'm not sure if you all have looked into this or if you even knew that that's what he had requested. I looked at the residences [Ex. 6 Personal Privacy (PP)] and the houses look like they're relatively close to the city proper. Would a PWS connection work in this case? I haven't called [Ex. 6 Personal Privacy (PP)] back yet because I wanted to see what Chemours stance on the PWS connection is.

Thanks,

**Kevin Rowsey**

**Ex. 6 Personal Privacy (PP)**

My name is Kevin Rowsey and I work for the U.S. Environmental Protection Agency Region III. I'm currently working with the Chemours Company and their contractor, AECOM, to identify perfluorooctanoic acid (PFOA), also known as C8, contaminated drinking water sources in and around the Chemours owned Washington Works plant near Parkersburg in Wood County. Under our Amended Administrative Order on Consent, the Chemours Company must identify all PFOA contaminated drinking water sources in the Parkersburg area (both public and private) and offer alternative drinking water to those residents.

It is my understanding that you own the property at [Ex. 6 Personal Privacy (PP)] and that your private drinking water well was sampled on January 24, 2017 which showed a result of 96 parts per trillion (ppt) of PFOA in your water supply. The EPA issued a Lifetime Health Advisory in May 2016 that established a new standard for PFOA concentrations in drinking water at 70 ppt. Therefore, the concentrations of PFOA in your private well exceeds the EPA health advisory. The Chemours Company is required to offer treatment for your well or provide an alternative.

I was told by AECOM that [Ex. 6 Personal Privacy (PP)] uses the same private well as your property at [Ex. 6 Personal Privacy (PP)]. The current resident at [Ex. 6 Personal Privacy (PP)] [Ex. 6 Personal Privacy (PP)] has been

offered bottled water as an alternative.

**Ex. 6 Personal Privacy (PP)**

**Ex. 6 Personal Privacy (PP)** It is the wish of Chemours and the EPA that treatment be installed on your private well to remove PFOA from your water at **Ex. 6 Personal Privacy (PP)**

AECOM emailed you on March 7 and April 12, 2017; however they have not received a response. We'd like to get in touch with you to discuss treatment options and set up temporary bottled water deliveries. Please contact **Ms. Ali Pearce**, a Chemours representative, at **304-588-1524** and she will help you plan installation of treatment, if you wish to receive treatment.

Please do not hesitate to contact me as well. I'm familiar with the processes and procedures that Chemours conducts when installing treatment.

Thank you,
